

The Earth's climate is being engineered

What partly cloudy used to look like

What partly cloudy looks like now

- Did you know that there are countless weather modification companies operating around the world every day making huge profits from controlling the weather. Here is the website of just one of those companies: www.rainonrequest.com
- Did you know that in 2012 the United Nations published a report listing 42 countries engaged in full time weather modification activities. Google: 'UN 42 countries weather modification'
- Did you know that the International panel on climate change (IPCC) does not include these climate intervention programs in their climate models. Catastrophic climate change is blamed on human activity and nothing else. Carbon taxes are set to cripple the world's economy and kill millions through starvation. For further info on IPCC climate models go to: www.ipcc.ch
- Did you know that governments around the world are now proposing taking control of the earth's climate as a response to global warming/climate change. For further info go to: www.ce-conference.org
- One type of proposed climate engineering is known as Solar Radiation Management. 'SRM' seeks to reflect incoming sunlight back out to space and thus cool the planet. One of the various techniques being proposed to achieve this is 'Stratospheric Aerosol Injection'. This would involve spraying aluminium oxide and sulphuric acid into the atmosphere from retrofitted commercial airliners, all with the aim of creating an artificial cloud blanket around the earth to reflect incoming sunlight and hence cool the planet. For further info Google: 'Stratospheric Aerosol Geoengineering by Alan Robock'
- Did you know that there has been no global warming since 1997. Google 'ClimateGate' or go to www.petitionproject.org
- Look at the sky, 'Stratospheric Aerosol Injection' is happening now, it has been for over 20 years
- These programs are reducing sunlight, changing the climate and affect all life. There is a vitamin D deficiency epidemic in Ireland now from lack of sunlight, yet governments want to block the sun. Almost all illnesses are vitamin D deficiency related
- These jet trails contain Aluminium which is detrimental to all life on earth. Thousands of rainwater tests conducted have confirmed that aluminium is present in high concentrations in rainwater all around the world
- Alzheimer's and Dementia are caused by an over accumulation of aluminium in the brain cells. Other related illnesses are Respiratory, Autoimmune, Lung and Heart problems
- Did you know that air pollution is now the single greatest health risk in the world. The mainstream media is blaming car emissions and coal pollution as being the main culprits but no mention of the countless tonnes of substances being deliberately sprayed into the atmosphere every day of our lives in these ongoing programs
- Did you know that a recent study out of Keele university in the UK found that Bees now have Dementia
- Did you know that the biotech company 'Monsanto' which is a major funder of these programs is now producing aluminium resistant seeds as a solution to aluminium contaminated soil
- Did you know that John F Kennedy stated at a UN general assembly on September 25th 1961 that 'All nations will work together to accurately predict and eventually control the weather. On youtube type: 'JFK talking about controlling the weather in 1961'
- Did you know that on Aug 15th 1952 the UK Met Office and the RAF were conducting rainmaking experiments in the village of Lynmouth in Devon when it was hit by the worst floods in living memory. The village was washed away and 35 people died
- Did you know that in December 2015 world leaders including mass murdering warmonger Barack Obama met in Paris and ratified a climate treaty. Enshrined in this treaty is 500 climate laws which will be incrementally enacted into legislation in 195 countries. These laws will mean dramatic changes for society. Google: '500 climate laws globe international'
- Did you know that in 1996 Mikhail Gorbachev said that 'The threat of environmental catastrophe will be the international disaster key to unlock the New World Order'. Catastrophic climate change is an engineered crisis designed to take control of every facet of human activity and is sold all in the name of saving the earth, when it is in fact to Enslave the earth
- Watch 'Why in the world are they spraying!' on Youtube for further information on the climate engineering/change agenda
- Contact us at Wexford Skywatch  for information on taking action to stop these horrendous crimes against life on earth
