**1340% INCREASE OF VACCINES GIVEN TO US CHILDREN FROM 1962 TO 2019**

RESEARCH, DON'T REGRET - EDUCATE BEFORE YOU VACCINATE

Did you know vaccine makers - doctors - have NO FINANCIAL Liability for deaths or injury due to Federal law (NCVIA) of 1986?

Decades of 30%-40% unvaccinated populations with no epidemics

The 90% plus coverage rates we see today were first achieved in the late 90's, and are the result of the convergence of 3 programs-

1. School attendance requirements, which began in the late 70's & early 80's.
2. The near complete indemnification for liability for bankrupted vaccine manufacturers and administrators by the NVICP. [The National Vaccine Injury Compensation in 1988](#); and
3. VFC- Vaccines For Children: a funding scheme whereby the government buys and provides all "required" vaccines, 1993.

Required vaccines are now legislated purchases. 2018 court ruling found [NO Safety Testing](#) for 32 years on vaccines as required by the 1986 (NVICP). RFK Jr. Lawsuit [tinyurl.com/yaxbodz7](http://tinyurl.com/yaxbodz7)

Autism uptick begins

\*Previously reported as measles-containing vaccine (MCV)  
 †No national coverage data were collected from 1986 through 1990.

**Combined 4-3-1:** Four or more doses of DTP/DTaP/DT, three or more doses of poliovirus vaccine, and one or more doses of any measles-containing vaccine.  
**Combined 4-3-1-3:** Four or more doses of DTP/DTaP/DT, three or more doses of poliovirus vaccine, one or more doses of any measles-containing vaccine, and three or more doses of *Haemophilus influenzae* type b vaccine.

Data prior to 1993 were collected by the National Health Interview Survey and represent 2-year-old children. Data from 1993 forward are from the National Immunization Survey and represent 19-35 month-old children. Different methods were used for the two surveys.  
 Data are available for vaccines and combinations of vaccines not reflected on this table. For more information about annual coverage figures from 1995 to the present, see <https://www.cdc.gov/vaccines/imz-managers/coverage/childvaxview/data-reports/index.html>.
